Reverse evolution: South Africa, are we progressing or regressing? ©

Intelligence or insanity:

We said that we “human beings” have since evolved, right? Then why do we torture and kill each other more than animals?

Since evolution, human beings have since been making discoveries about their species and learning new capabilities. However, human beings have also been using the discoveries and learned capabilities to cause harm to one another. The most insane and inhuman discovery was use of shiny things called coins and colorful papers called money. It is no longer even coins and papers, it is now just objects such as “cards” and the use of numbers to get other human beings to commit the tabled crimes against another human being. Lets briefly count the most inhumane deeds which are forbidden by humans, but committed by human beings, without the help of the animals.

YEARS (BC &AD) PRE-COLONIAL, COLONIAL, APARTHEID AND DEMOCRATIC ERAS											
1.	Slavery	2.	Trafficking	3.	Kidnapping	4.	Murder	5.	Assault	6.	Emotional abuse
7.	Rape	8.	Theft	9.	Corruption	10.	War	11.	Exploitation	12.	Discrimination
13.	Terrorism	14.	Abduction								

It is very noticeable that animals fenced in the national parks are aware that there are other animals which are less powerful than they are. Yet, you seldom find them drinking water from the same river. There are no different houses in the national parks, yet you see animals protecting one another and treating each other as if they know that they live under the same sky. Animals don't even have houses, bodyguards, cellphones and most of all, they do not have money, but they seem to thrive better than us humans. **The question is, why do we presume that we have evolved while we have regressed?** Here are the reasons we have regressed:

- **Death for sale:** Taking out insurance to benefit when a human being dies. Those who are impatient with your death, they **Murder** you to fasten the process to cash out the money.
- **Weapons for sale:** Most governments and individuals around the world spend money to design and manufacture the most effective weapon to go to **War** to kill other human beings.
- **Lifestyle for sale:** Human beings uses money to **sell (Trafficking)** another human being to another. Promises money to **solicit (bribery)** what another does not have to secure a **different** way of life and pay one another money, to go **steal (Theft)** more money.
- **Domestic violence for sale:** **Assaulting, emotionally abusing and raping** the person you claim to love and sweet treat him or her with gifts and money for the **torture** to continue.
- **Power for sale:** When people **kidnap** children, **abduct** adults and mutilate them for body parts with the intention to use for “unorthodoxy mystical” power play.
- **Pleasure killing:** When human beings find it amusing to invade other people’s countries and commit mass killings. It’s a destruction of human life. You are fastening the process for those human beings to not exist anymore, just because you like it like that, simply that.
- **Insane wealth from Slavery and exploitation** of other human beings. Why don’t you work yourself, if you want to have lots of money faster? Try it, you might enjoy it.

IF ALL THIS IS STILL HAPPENING TODAY, WE HAVE NOT YET EVOLVED. WE HAVE REGRESSED. EVOLUTION IS THE POSITIVE CHANGE AND GROWTH OF HUMAN BEINGS WITH TIME.
